which their boats daily experience, the manage seem determined to manifest a masterly disregard of their

daties in this respect

Doubtless they are seting for some terrible calamity, such as the which recently occurred on the Dela ware, " give colat to the precautionary measures coleb public indignation would then compel them to bdopt. For their criminal apathy, it seems to us, they rickly deserve to be indicted by the Grand Jury as a dangerous nuisance.

HOROKEN FERRIES.—We hear a good deal of complant from citizens living on the west side of the city above Canal street, in regard to the running hours of the Christopher street and Hoboken ferry boat. There is no boat after 7 o'clock p. m., and those taking their families across the river to enjoy the refreshing breezes and invigorating air of that locality, are compilled to land away down at Barclay street, fithey remain after the above hour. A number of p-ticious are now in circulation to be presented to the Common Council, calling the attention of that body to this grievance, and urging that some arrangement be made by which the trips of the Christopher street boat will be continued to at least 2 o'clock p. m.

COMMISSIONERS OF RECORD .- In the month of April, 1855 a special act was passed by the Legisla ture appoining Richard Busteed, William C Wet more, George P. Nelson and Jonathan Nathan Commesioners of Records to construct an index to the tiles of all the real estate in the City and County of New-York, daving from the period of the old charter of Queen Anne 1686, to the year 1859 Agreeably to this act, an appropriation of \$50 000 was made; but, now apply to the Board of Supervisors for a farther sum of \$150,000, to be used in continuance of the work. The Committee on County Offices of the Board of Supervisors met yesterday afternoon in Mr. Valeatine's office, City Hall, and took the matter up for consideration, when arguments were made for and against the appropriation. Although this work when completed will result in a great saving of time and expense to those engaged in litigation, it was contended that it would only be for the particular benefit of lawyers. Notwithstanding that many members of the Board are opposed to such an extravagant outlay of the public fueds, the Committee appear inclined to recommend the appropriation. The matter will doubtless come up before the Board for their action in a few days.

THE HARBOR COMMISSION .- The Harbor Commismoners have laid down the following provisional bulkhead and exterior lines: Commencing at the Battery on the New-York shore of the East River, and running thence northerly to Forty-second street, and from Newtown Creek on the Long Island shore, southerly to the entrance of Gowanus Creek, Brooklyn; thence southerly to Fort Hamilton. Also, from a point half mile north of Fort Tompkins, on the east shore of Staten Island, running thence northerly to the entrance of the Kill Van Kull, thence westerly on the northerly shore of the Kill Van Kull and Arthur's Kall, or Staten Island Sound, to the southwesterly point of Staten Island. Also on the easterly shore of Hudson River, from the Battery to a point one mile north of Spoyten Duyvil Creek. The Commissioners will shortly give rotice that all structures now being creeted or to be erected in the waters of New-York harbor, within the areas described by the above lines, harbor, within the areas described by the above lines, must be made to conform to such lines, or will be enjoined and forbidden nuder the powers granted to the Commissioners by the Act of March 30, 1855. The lines remaining to be surveyed are upon the south side of Staten Island, both shores of Harlem River, both shores of East River to Throgg's Neck, both shores of Newtown Creek, and around all the islands in the Harber. These lines will be laid down during the number and fall, Mesers. Bache and Davis, of the Advicory Board, have returned home for the present. The surveying party attached to the Commission are now engaged in taking soundings outside of Sandy Hook.

THE GREAT TORNADOS AT WOODSTOCK, UP-PER CANADA AND CHATAQUE, NEW-YORK.—It will be seen by comparing the respective accounts of the great ternados in Upper Canada on the 28th, Sunday, at 5 p. m., and that at Chataque on Wedneeday, 30th, between 9 and 10 a. m. with my published memorands in your paper of July ist and 2d, in which I say that the temperature here on Sunday, 79th was at 38° at 2 a. d 3 p. m. and on Monday, 30th, was at 38° at 9 a. m., that the two extraordinary conditions of atmosphere were simultaneous; and my engestion in the pa-per of the 2d, that seconds from abroad may explain this ex-iraordinary state of atmospher8, has been fully confirmed. I have no doubt that the extraordinary state of atmosphere was connect d with convulsions beneath the great lakes. Heachi, Mights, July 8, 1836. E. MERIAM.

PRIZE FIGHT IN QUEENS COUNTY .- On Sunday afternoon a prize fight took place in a piece of woods north of the Calvary Cemetery, on the old Flushing road. About 150 persons were present to wirness the ercounter. The principals were a German residing in Sherff street, New York, and Foot Cornell, and the spectators were their respective friends residing in the vicinity of the Dry Dock. Officers King and Hallet followed the party to their destination, and on arriving there with two Astoria officers, found that the fight was nearly over and one of the men was lying panting upon the ground. They arrested the principals, when the spectators rushed upon them with slung-shots and revolvers and rescued Cornell. The crowd were prevented from rescuing the German, as they did not like to risk the contents of a revolver in the hands of one of the officers. The prisoner was taken to Astoria, and warrants were issued by Justice Boyd for the arrest of others of the party

### LAW INTELLIGENCE.

UNITED STATES DISTRICT COURT-JULY 8.-Before Judge BETTS.
THE BRAMAN CASES-DA COSTA'S BAIL.

The Brahan Cases—Da Costa's Ball.

To-day the parel of grand and petit jurors was made returnable, but upon calling the names but eight or nine of the former answered. After some discussion with reference to the power aid duty of the Court is the matter of obtaining jurors in the course of which Judge Bette remarked that a recent decision of the Supreme Court, not yet published construed the statute on this subject as not requiring conformity to the laws and customs of the State, unless convenient, but as leaving the wholeymater in the discretion of the Court. The Marshal was directed to sum mons twenty additional grand jurors for Wednisday morning, the 5th inst. Judge betts also stated that be could cover only the present week to jury business and therefore requested all parties to be as expeditions as possible.

The District Atomes moved that the Braman be so-demond, the fur her time to answer having expired; out the Court being estisfied that it would be a suprese upon Mr. E. C. Banedett, who supposed that his motion for ten days—he usual time—was granted as saked, extended the week actually granted into test days.

who suproced that his motion is r too days—he usual time—was granted as asked, extended the week actually aranted into ten days.

Hanrico da Costa, being present in court, Mr. Benedict moved that the forfeiture of his recognizance be remitted. Da Costa set up the advice of an intimate friend, name not stated, in excuse, of his non-appearance on the return day. Jadge Botta finally said that the forfeiture of recognizances was not conclusive, that the Court would see it worked no harm, and that, under the circumstances, he would relieve in the present case. The taxable costa, it claims those of suing the ball bood, which, it seems, was put in suit within an hour after its forfeiture, about be allowed.

Mr. McKeon now moved, under the sinth section of the law of Aug 8, 1846, an increase of ball in Da Costa's case, and in default thereof, his commitment. He read his own affidavit to law facts that the ball was insufficient, and that there was dan layer that Da Costa would abscond. In arguing this motion, Mr. McKeon described the circumstances connected with a similar application to Commissioner Morton, and subsequently affinavits on the one side of Deputy-Marshal Helms, and on the other of Mr. Benecit and De Castro, bearing upon Da \_set's alleged alsoconding on this occasion, were put in. The Court not considering the proof strong enough to warrant him in literfering with the discretion of the Commissioner in fixing the ball, and remarking that a wide distriction was made in the amount required upon a bench warrant, after indictment found, and a mere warrant of arrest, refused to grant the motion.

In the course of the argument Juage Bette expressed his surprise at an article which he saw if one of the motion.

In the course of the argument Juage Bette expressed his surprise at an article which he saw if one of the motion in this case. Had the Commissioner does not further ball, he would have done what no officer of the United States, however high in station, has a right to do, and what would have

been stifficient cause for his removal. Before the law of 1846, the Jrage remarked, the Courts of the United States had no means of increasing bail, and that statute was drawn up by Judge Nelson and himself in order to remove the defect.

There was a large business transacted at the Stock Board to-day, and in the market generally there was a downward tendency in prices at the First Board. The leading fancies were offered rather more freely, while the buile did not appear so willing to sustain the market as they were last week. There has been a large amount of realizing of profits within a few days by parties who went in at low figures, especially by bayers of Erie at 56 @ 58, and new parties have not appeared in sufficient strength to relieve the market of the stock thrown upon it excepting at a reduction. The shorts also have generally supplied themselves, and the demand from this source has fallen off. A portion of t'e reaction to-day is doubtless due to a growing apprehension that the continuance of the present specie shipu cuts may produce a sudden change in the action of the Banks, and bring about less ease in the Money market. No stringency can be looked for at present, er a) long as the Deposits of the Banks continue so large, and their Specie line remains above \$12,000,000 or \$13. 000,000; but operators have such a vivid remembrance of the time when in three days this Money market changed from extreme case to the reverse, that they watch the indications of the market with great anxlety. Erie opened at 63, fell off to 62;, reacted to 63;, and finally closed at 63-a decline of | P cent on yesterday. Reading sold as low as 911-a decline of 1 ? cent-but closed at 92]. Panama was steady at 101. Ohio Life and Trust, with considerable sales, advanced to 274. Canton sold at 23, and Cumberland at 224 @ 23. In Western shares there was quite a large business, with an irregular market. Cleveland and Toledo was heavy in the morning at 781, but afterward recovered to 781, and closed firm. Galens, 1131; Pittsburgh, 621; Chicago and Rock Island, 93], which is better; Michigan Southern, 98; Michigan Central, 951, &c. Milwankee and Mississippi im proved 1, selling at 822. The largest advance was in Illinois Ceatral Stock, which, under large orders from abroad sold in the street as high as 105, an advance of \$1 \$ cent since the steamer arrived. A sale of the Privilege Stock, to be called for upon any time before the 1st January, 1858, at par, was made-600 shares, at \$8 \$\psi\$ share premium. For Railroad Bonds the market is very strong, especially for Illinois Central, which improved to 914, with sales of over \$100,000. Eries, 1871 sold at 884; 1862, 874; Central 7s, 1004, [State Stocks sold to the extent of about \$100, of which \$75,000 are Missouris, at 85, @86.

We hear of about \$1,300,000 in gold engaged for the steamer to-morrow; by Messrs. Brown Brothers, \$150,000; Belmont, \$500,000 or \$600,000; Pickersgill, \$100,000; King's Sons, \$200,000; Van Hoffmann, \$100,000, &c. Some \$200,000 additional engaged has been countermanded, as the parties found bills at 91.

The bu-iness of the Clearing-House was \$24,537,000. The Annual Meeting of the Cleveland and Toledo Road was held at Cleveland July 2, at which the following Board of Directors was elected: Elisha C. Litchfield, New York; Charles Butler, New-York; E. B. Latchfield, New York; William Jarvis, Middle-town; Joseph Lyman, Cleveland; J. B. Waring, Cleveland; Daniel P. Rhodes, Cleveland; John Gardiner, Norwalk, Ohio; F. T. Baruey, Sandusky. Mr. J. B. Waring was elected President, and Mr. E. B. Litchfield Treasurer. An arrangement has been made with the line of boats running from Buffalo to Cl-veland to run in connection with this road, by which passeegers leaving Buffalo at night have a short ride upon the Lake and arrive in Chicago early the next evening and several bours earlier than by the boats running to Detroit or Teledo. This will, no doubt, aid to the business of the Cleveland and Toledo road during the Summer mouths. The officers of the Wabash Valley rend expect that the freight business of their road alone will give the Cleveland and Toledo road at least two daily trains of freight during the Fall and Winter. The earnings of Jane on the Cleveland and Toledo goad are \$71,080—against same month in 1855, \$58,700 crease. This increase if continued will make the receipts of the year about \$1,200,000-equal to 10 P

tary amounts to \$19,399,730 97. From this must be deducted \$5,354,811 65, being the total amount of premium and interest paid. There has been no change in the amount of old funded and unfunded debt since the 8th of May, 1854, the date of a former statement; and the amount of treasury notes has been reduced but \$1,700. Of the present amount of treasury notes outstanding only \$9,700 are of the acts of 22d July, 1846, and 28th January, 1847. Upon a careful examnation it is ascertained with a good deal of certainty that ffleen millions of the United States stock is bold by foreigners. The amount of transferable stock thus held is known to be \$11,500,000, and the amount of ccupon bends estimated at \$3,500,000. At least half the aggregate amount is held in France.

In Floor there is not so much doing to-day, but prices are without quotable change; the sales are about 14,000 bbls. Shippers are buying less freely; State brands are selling at \$6 40 245 65. There is als less doing in Wheat, but prices are unchanged, the supply is not good; the sales are 42,000 bushels at previous rates. Corn is quiet at prices as before quoted. Pork is very active; the sales are 3,100 bbls. at \$20 62} @\$20 75 for Mese, and \$17 25@\$17 37} for

Prime. Included in the sales are 1,000 bbls. for August at \$20 50. Other provisions are steady. In Groceries the business is to a fair extest at previous prices. The market for Cotten continues dull, holders not yielding the concession demanded by buyers. The receipts at all the ports thus far since 1st September have been 3,444 000 bales, against 2,669,600 in 1855, and 2,801,000 in 1854, and 3,178,000 in 1853. The total exports have been 2,827,-000 bales in 1856, against 2,046,000 in 1855, 2,065,000 in 1854, and 2,387,000 in 1853. Of the exports 1,857,-000 bales have been to Great Britain, against 1,389,000 in 1855, 1,451,000 in 1854, and 1,641,000 in 1853; and to France 476,000 bales in 1856, against 405,000 in 1855, 306,000 in 1854, and 413,000 in 1853. The stock on hand at all the ports is 160 000 bales, against 200,e00 in 1855, 316,000 in 1854, and 223,000 in 1853. The increase of receipts over last year is 775,000 bales. The increase in exports to Great Britain over last year is 466 000 bales, and to France 71,300 The receip s at all the ports last week show only 17,000 bales, against 49,000 last year. The exports to Great Britain are 28,000 bales, against 10,000, and the total exports 39,000 bales against 14,000 bales.
